

CSIR-CIMAP

Five Days Training Program on Herbal Drug Development Technologies

16-20 January, 2023

Organized by : CSIR-Central Institute of Medicinal and Aromatic Plants (CSIR-CIMAP), Lucknow

CSIR-Central Institute of Medicinal and Aromatic Plants (CSIR-CIMAP), a frontier plant research laboratory of the Council of Scientific and Industrial Research (CSIR), is steering multidisciplinary high-quality research in biological, agricultural and chemical sciences, and extending technologies and services to the farmers and entrepreneurs of medicinal and aromatic plants (MAPs). CSIR-CIMAP has made great progress in fundamental research, technology and product development, extension activities and human resource development and played a key role in positioning India as a global leader in production of mints, vetiver and other aromatic grasses, and in ensuring indigenous production of artemisinin - a WHO approved anti-malarial. CSIR-CIMAP has also played a key role in successfully commercializing an ayurvedic herbs-based anti-diabetic formulation, which has now benefitted millions.

Important Dates:

Training program dates: **16-20 January, 2023**

Last date for online application submission: **6th Jan., 2023**

Aims of the training program

India is sitting on the goldmine of well-recorded and well-practiced knowledge of traditional herbal medicine and it has a rich heritage of medicinal plants (more than 8,000 medicinal plant species). Therefore, there is a great need to understand the process of herbal drug development and the technologies used for this purpose. This five days residential training program will help the students/researchers/faculty members and industry persons to understand the basic concept of herbal drug development, pharmacognostic evaluation, chemical characterization of plant extracts and essential oil, *in-vitro* and *in-vivo* evaluation of herbal drugs, and Ayurvedic as well as pharmaceutical formulations.
